REPLACEMENT ABSTRACT

Please delete the abstract and replace the abstract with the following paragraph:

A desktop file organizer includes a plate, a plurality of vanes, a band, and a catch. The plurality of vanes are each attached at a respective first end to the plate. The plate includes a first side and a second side, and the first side is separated from the second side by the plurality of vanes. The band is attached to the plate on the first side. The catch is disposed on the plate on the second side. The vanes are securable against the plate by disposing the band across the vanes and on the catch.
